

AVI BHADIYADRA

Construction Cost Estimator | Commercial, Industrial and Mission-Critical

Toronto, ON (open to relocation) | +1 (437) 984-9856 | avibhadiyadra@gmail.com | [linkedin.com/in/avibhadiyadra](https://www.linkedin.com/in/avibhadiyadra)

SUMMARY

Construction Estimator with 7+ years of experience across industrial, mission-critical, institutional, commercial, and residential projects. Skilled in conceptual and detailed estimating, multidisciplinary quantity takeoffs, bid leveling, value engineering, and procurement support. Construction-stage experience includes change-order pricing, budget-to-actual analysis, and forecasts to completion across Construction Management, Design-Build, and Lump-Sum projects.

CORE SKILLS

Estimating: Conceptual to detailed estimates (Class C/B/A), quantity take-offs, CSA and MEP package pricing, bid leveling and scope alignment, GMP and target-price development

Cost and risk: Value engineering, cost risk analysis and contingency planning, cash-flow forecasting, change request and RFI review, subcontractor buyout and negotiation

Delivery models: Construction Management, Design-Build, GMP, Lump Sum, Design-Bid-Build, EPC

Software: Bluebeam Revu, Plan Swift, Autodesk Construction Cloud (Building Connected), Procore, MS Project, Excel (advanced), Word, PowerPoint

EXPERIENCE

Project Estimator | Pomerleau | Toronto, ON

Aug 2025 – Present

- Lead cost modeling and financial controls for ICI programs exceeding CAD 1B under CM, Design-Build and Lump Sum delivery.
- Develop Class C, B and A estimates from early concept through construction, updating them as the design develops.
- Identify cost drivers and present value-engineering options across civil, structural, architectural and MEP trades to support design, procurement and executive decisions.
- Assess value-engineering alternatives, long-lead procurement risks, and escalation exposure to support budgets and contingency planning.
- Build cash-flow forecasts and support GMP and target-price development for owner, consultant and lender approvals.
- Develop and maintain Class C, B and A estimates, cash-flow forecasts and contingency plans from early concept through construction.
- Direct trade pricing, scope alignment and bid leveling across civil, structural, architectural and MEP packages to confirm full scope coverage.
- Support GMP and target-price development for owner, consultant and lender approval on complex capital programs.
- Work with project leadership, consultants and trade partners to control cost and risk across multi-phase ICI builds.

Project Estimator | Prime Design Build Corporation | Vaughan, ON

Sep 2023 – Aug 2025

- Led bid preparation and cost estimating for multi-phase ICI, commercial and residential projects valued at CAD 5M–60M.
- Produced Class C, B and A estimates from limited design information, coordinating with scheduling to align cost and timeline.
- Reviewed architectural and engineering specifications and contract documents to flag cost risks and value opportunities.
- Managed sub-trade tender packages and quote comparisons across Divisions 1–16 using Bluebeam.
- Presented cost breakdowns and bid strategy to leadership at bid reviews.
- Negotiated with 100+ subcontractors and suppliers, securing up to 15% savings on awarded contracts.
- Presented cost breakdowns and bid strategy in leadership bid reviews, then supported handover through subcontractor buyout and scope reviews.

Project Estimator | Everest Corporation | Toronto, ON

Dec 2022 – Aug 2023

- Estimated 25+ residential and commercial projects valued at CAD 1M–5M.
- Prepared 40+ tender forms and proposal documents to client specifications.
- Negotiated pricing with 100+ suppliers.

- Directed cost estimates for large civil engineering projects, building up material, equipment and labor costs.
- Ran bid evaluations and post-evaluation reviews on 10+ projects, improving forecasting accuracy by 20%.
- Managed bid document control for 30+ tenders and oversaw RFIs, change requests and purchase orders.
- Built working relationships with 50+ vendors and stakeholders to support procurement and reduce risk.

- Performed quantity take-offs from complex construction drawings and coordinated sub-trade pricing.
- Negotiated material and trade pricing with suppliers and subcontractors.
- Used estimating software and Excel to streamline estimate preparation.

SELECTED PROJECTS

Project	Type and scope	Delivery method	Value (CAD)
Equinix Data Center Fit-Out	Mission-critical: AI data center fit-out for high-density computing	Construction Management	80M
Equinix TR7 Data Center	Mission-critical: data center	Construction Management	20M
Barrie Data Center	Mission-critical: data center	Lump Sum	100M
Stevenson Memorial Hospital	Healthcare: hospital expansion and modernization	GMP / Lump Sum	200M
OPP Buildings & Parking Garage	Institutional: police buildings and parking garage	Design-Build	170M
McMichael Art Gallery	Cultural: art gallery renovation	Construction Management	150M
YRT Bus Facility Redevelopment	Transit: bus facility redevelopment	Lump Sum	80M
Innovation Centre, 154 Wicksteed Ave, Toronto	Laboratory and R&D: 100,000 sf innovation facility	Design-Build	60M
Downsview Servicing & Civil Works	Civil: site servicing and infrastructure package	GMP / Lump Sum	20M
Royal Titanium, Surat, India	Industrial facility	Construction Management	20M
Archive One	High-security institutional: 280,000 sf archive and data storage facility	Design-Build	20M
Provincial Court & Administration Facility	Institutional: court and administration facility	Lump Sum	20M
Stouffville Medical Arts	Healthcare: 25,000 sf medical office building	Construction Management	20M
Boxgrove Building & Site Works	Industrial: smart storage facility and site works	Design-Bid-Build	15M
78 Rainside Road	Industrial: facility upgrade and renovation	Construction Management	10M
JP Development Earthworks	Industrial site works: mass excavation and grading	Design-Bid-Build	6M
EWS-I Flats & Shops, India	Residential and retail: 10-tower development	EPC	70M
591 Finch Avenue, Toronto	Residential: 12-storey, 90,000 sf apartment building	Design-Bid-Build	60M

Additional residential, retail, recreation and restoration projects (CAD 1.5M–40M) available on request.

EDUCATION

Postgraduate Diploma, Construction Project Management Lambton College, Toronto	2022 – 2024
Bachelor of Engineering, Civil Engineering (First Class with Distinction) Gujarat Technological University, India	2016 – 2019
Diploma, Civil Engineering Gujarat Technological University, India	2013 – 2016

CERTIFICATIONS AND MEMBERSHIPS

- Certified associate in project management (CAPM), Project Management Institute (No. 3773370)
- Procore Certified: Estimator; Project Manager (Quality & Safety)
- Pursuing Professional Quantity Surveyor (PQS) designation, Canadian Institute of Quantity Surveyors
- Emergency First Aid and CPR/AED Level C (CSA Z1210-17)
- Member, Project Management Institute
